

Home Light Family Living's 26th Anniversary Mother's Day Outdoor Luncheon

Sunday, May 7th
11am - 1pm

Los Angeles Airport Marriott

Because of the substantial increase in families experiencing homelessness, The Midnight Mission established its Family Living Program in 1995. Located in a safe residential area in Los Angeles, The HomeLight Family Living Program consists of 12 renovated, fully furnished apartments.

Thanks to our generous supporters, HomeLight Family Living is more than just a safe residence for families shattered by abuse, addiction, poverty, and hopelessness. It is a comprehensive path to becoming healthy, happy, and self-sufficient. Victims of domestic violence, human trafficking, and those dealing with issues of sobriety and other unthinkable circumstances find solace at HomeLight and are restored to independent, successful lives.

Families accepted into HomeLight Family Living typically live with us for one year, providing time to stabilize, plan, and move forward in a structured environment. Family members receive individualized plans for their transition to independent living, which include education, mental health therapy, job preparedness, and family reunification.
