

Halloween Activities: All Fun, No Frights!

From our home to yours ...

At The Midnight Mission, we provide support and critical services to families and individuals in LA County who are homeless, are experiencing hunger, or have lost direction.

Through our HomeLight Family Living Program, we offer more than just a place to stay. With counseling, child development support, education, and other resources, we help families with kids get back on the path to healthier, brighter futures.

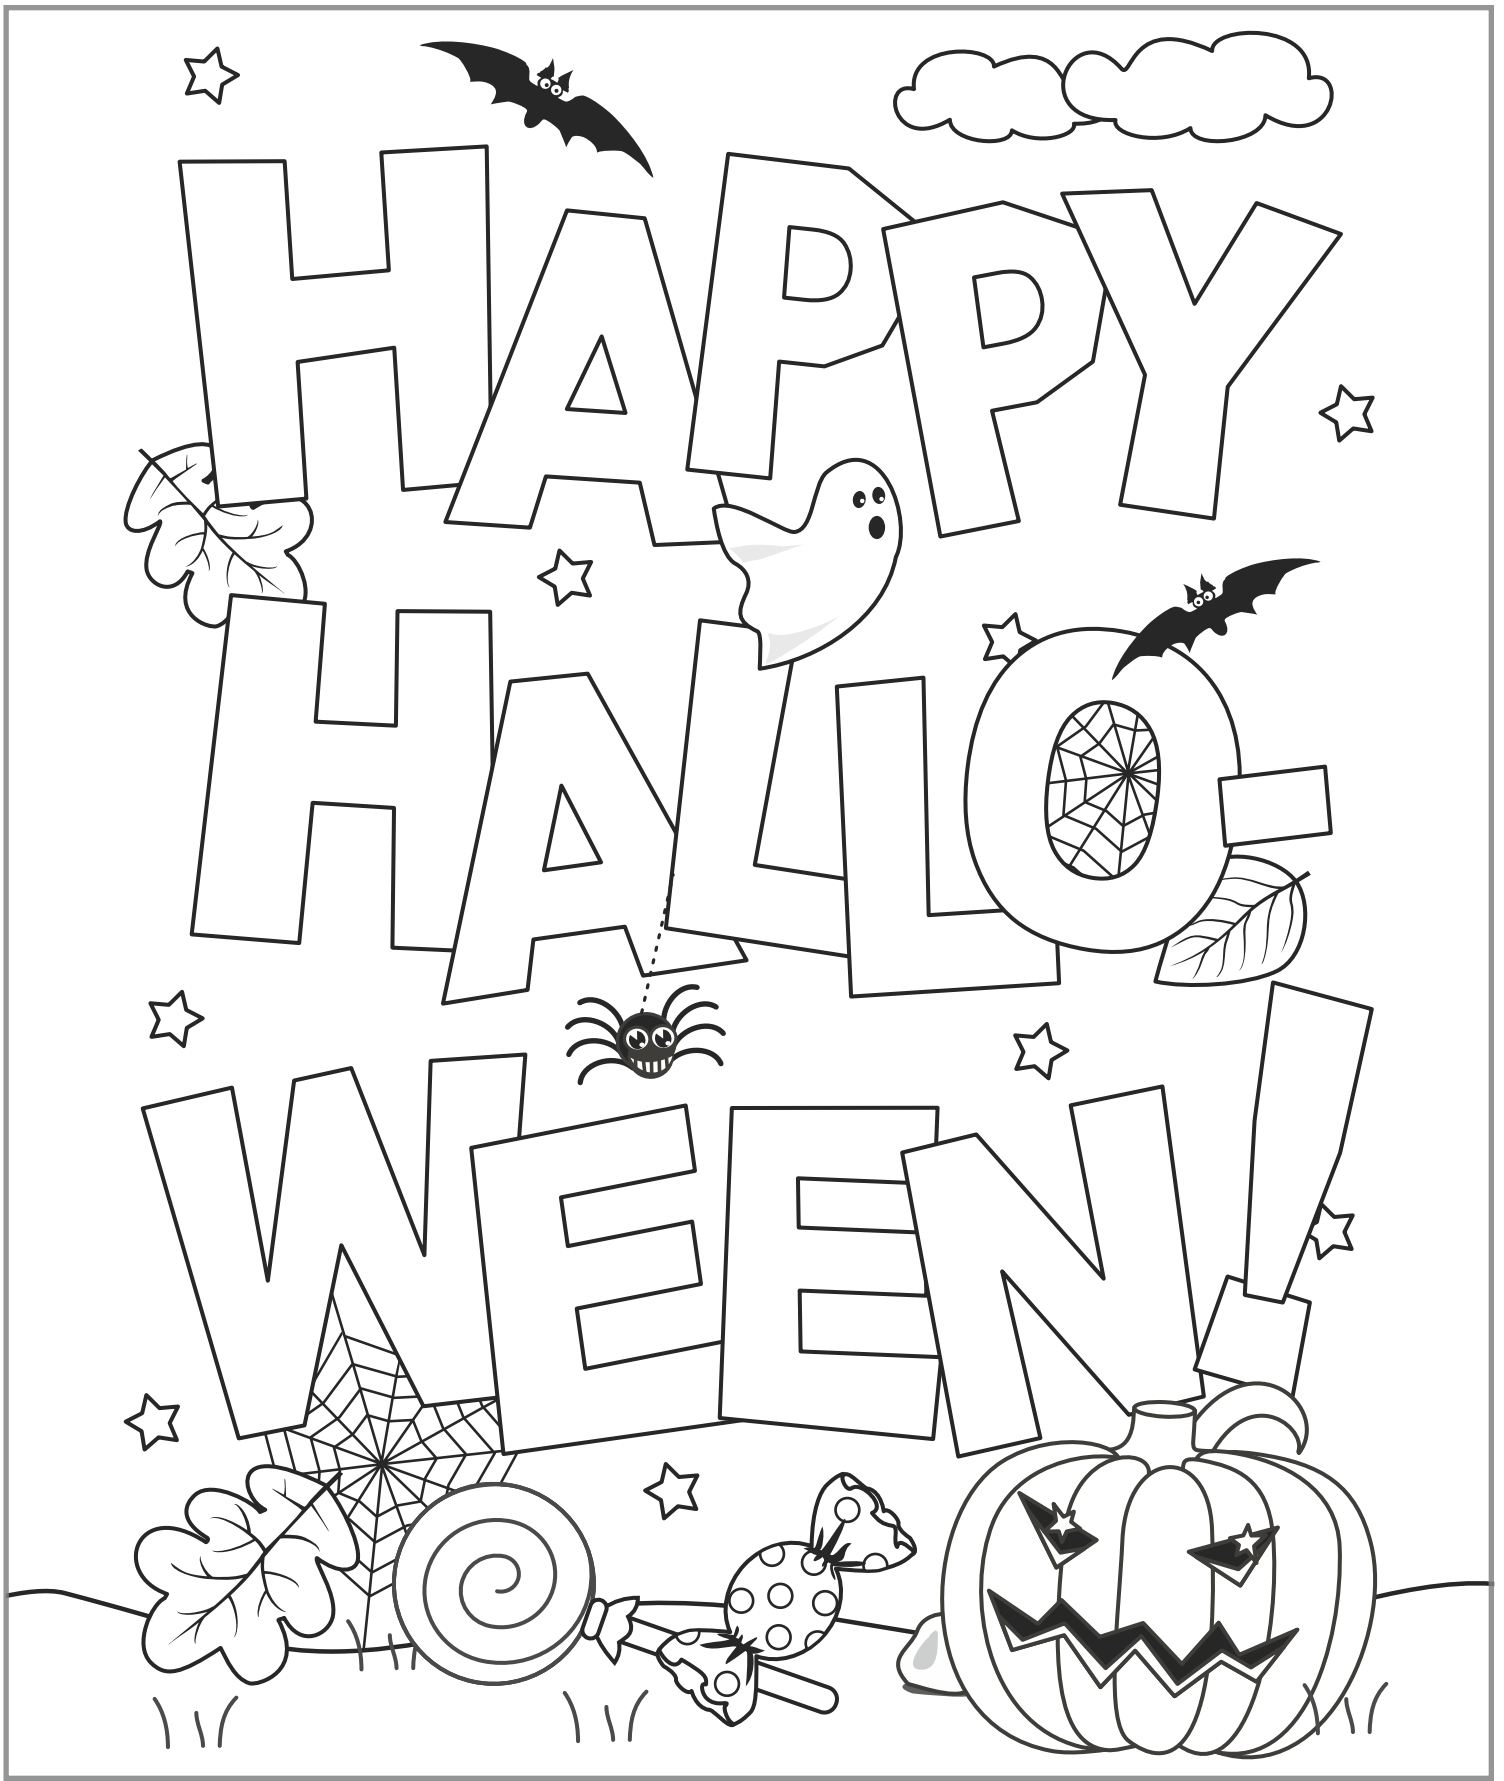

So we know the importance of connection and quality time together, including during holidays and times of celebration.

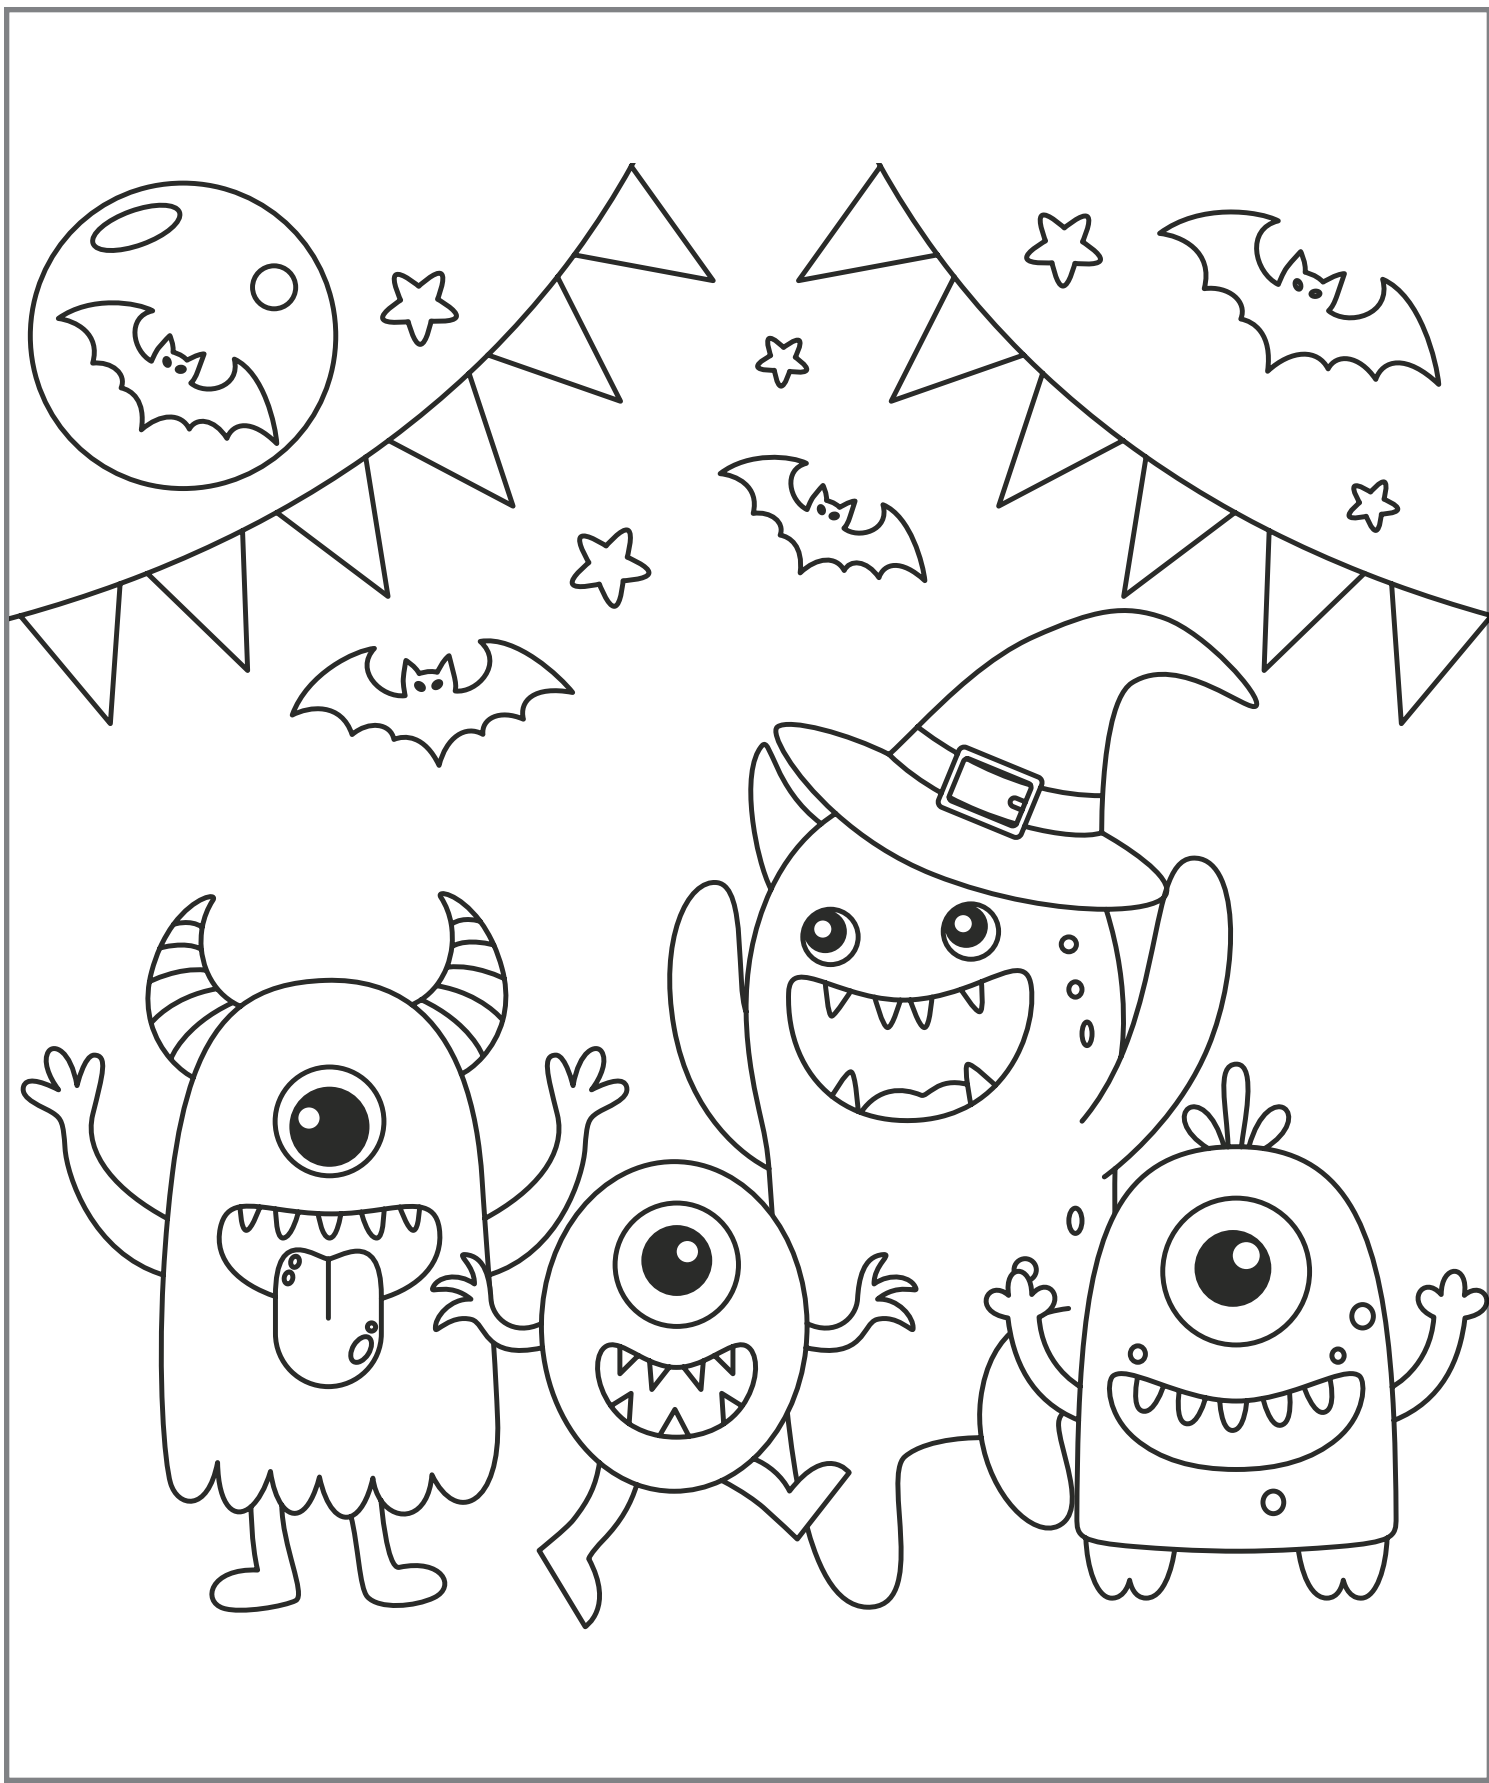

Whether you're planning a quiet night in or gearing up for trick-or-treating, why not *carve out* the time to make your best jack-o'-lantern yet or spend a calm hour coloring? Enjoy!
